

Enjoy the benefits of a safer home water supply with Marley Rain Harvesting Kits

Marley Rain Harvesting products are safer solutions for the collection, storage and distribution of rainwater.

HOW SAFE IS THE WATER YOU ARE COLLECTING?

When collecting rainwater as a partial or total source for a water supply it is essential the design of the system meets the need for potable (safe drinking) water.

Water collected from a roof and stored and distributed from a water tank, can contain a nasty range of pollutants that can contaminate your water, for example bacteria from bird droppings, insects, rotting debris, airborne dusts (containing heavy metals).

The Marley Rain Harvesting System comprises of a number of unique and cost effective components that are designed to work with the Marley uPVC range of spouting and downpipes to help make tank water as clean as possible. However, it is advisable to have your tank water analysed to check its potability.

Kit 1 Rainwater Filtration & Diversion – Basic Kit

- 1 Outlet Strainer
- 2 Debris Diverter (Marley recommend one per downpipe)

Kit 2 Tank Improvement Products – Intermediate Kit

includes components of Kit 1 plus:

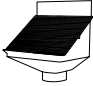

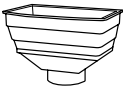

- 3 First Flush Diverter (kit requires additional pipe for chambers)
- 4 Floating Outtake Kit
- 5 Tank Vacuum Kit

Kit 3 Advanced Kit

includes components of Kit 1 and 2 plus:

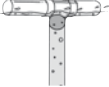

- 6 Calmed Inlet
- 7 Vent Cowl, Overflow
- 8 Tank Gauge
- 9 Flanged Tank Overflow Outlet

KIT 1 Rainwater Filtration & Diversion – Basic Kit

OUTLET STRAINER 	PRODUCT CODE: RWST	1
LEAF EATER RAIN HEAD 	PRODUCT CODE: RH8119	2
LEAF BEATER RAIN HEAD 	PRODUCT CODE: RH8120	2
LEAFSLIDE 	PRODUCT CODE: RWLS	2
LEAF CATCHER RAIN HEAD 	PRODUCT CODE: RH8117	2
DOWNPIPE DIVERTER 	PRODUCT CODE: RWDD	2

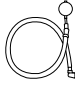

KIT 2 Tank Improvement Products – Intermediate Kit

includes components of Kit 1 plus:

90mm FIRST FLUSH DIVERTER 	PRODUCT CODE: RH8119-5 700-90-6 (90 DN Stormwater Pipe 6SJ)	3
300mm FIRST FLUSH DIVERTER 	PRODUCT CODE: RH8121-1 FFD.300.1.5 (300mm x 1.5m) FFD.300.2 (300mm x 2m)	3

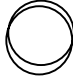

Calculation Method:

90/100mm Dual Fit First Flush Divertor KIT only
 $m^2 \text{ Roof Area} \times \text{Pollution Factor} +$
 $(\text{Length of wet pipe(m)} \times \text{pipe cross-section factor}) = \text{litres to be diverted}$
 Pollution Factor 0.5 Minimal Pollution; open field
 Pollution Factor 2 Substantial Pollution; leaves, debris,
 bird droppings, various insect matter

FLOATING OUTTAKE 	PRODUCT CODE: RHFO	4
FLOATING OUTTAKE COLLAR 	PRODUCT CODE: RHFO.C	4
90mm TANK VACUUM KIT 	PRODUCT CODE: RHFVT90 (Poly/F-Gloss/Flat Wall) PRODUCT CODE: RHCONTV90 (Concrete Tanks)	5

KIT 3 Rainwater Filtration & Diversion & Tank Improvement – Advanced Kit

includes components of Kit 1 and 2 plus:

CALMED INLET 	PRODUCT CODE: RHCI	6
VENT COWL 	PRODUCT CODE: RH8119-9	7
STAINLESS STEEL INSECT PROOF SCREEN 	PRODUCT CODE: RH8116	7
INSECT PROOF FLAP VALVE 	PRODUCT CODE: RH8119-3	7
MECHANICAL LEVEL GAUGE 	PRODUCT CODE: RHMG	8
RAIN ALERT 	PRODUCT CODE: RHRA	8
FLANGED TANK OVERFLOW OUTLET 	PRODUCT CODE: RH8124-1	9
PLAIN TANK OVERFLOW 	PRODUCT CODE: RH8124-2	9
