

AKATHERM HDPE
DRAINAGE
JULY 2016

PE DRAINAGE

The Akatherm HDPE system has a full range which includes pipes, bends, junctions, reducers, traps and electrofusion couplers. Akatherm HDPE has high temperature and chemical resistance which makes it ideal for drainage in, apartments and commercial buildings through to industrial use. It is flexible and tough and can be installed underground and embedded in concrete.

It is a closed system which makes it ideal for many trade waste applications like industrial and laboratory fluids where system integrity and secure connections are critical.

Akatherm PE drainage complies with EN1519 and has water mark certification for AS/NZS 4401 and AS/NZS 5065

Marley also supplies Akasison siphonic and Akavent high rise PE systems so please contact us for further information on these specialist systems.

	Item Number	Item Description	Wall Thickness (mm)
PE DRAINAGE PIPE 5 METRES			
	A100400	40mm x 5m	3
	A100500	50mm x 5m	3
